“ At Lambert family, we stand behind our products. ”

A family company dedicated to horticulture for four generations.

Founded in 1928, Lambert Peat Moss Company is recognized as one of the pioneers of the peat moss industry in North America. Now led by the fourth generation of the Lambert family, the company continues to operate from its original location in Rivière-Ouelle, Québec, along the south shore of the St. Lawrence River. Over the decades, Lambert has expanded its operations to several peat bogs along the north shore and near Lac St-Jean, strengthening its capacity to supply high-quality growing media.

From its beginnings with screened and bagged peat moss, Lambert has grown into a leading manufacturer offering a wide range of professional growing mixes, retail potting soils, and premium peat moss products designed to meet the needs of both professional growers and home gardeners. Today, Lambert serves customers across North America through a strong distribution network and dedicated product representation. Our products are competitively supplied to distributors and commercial users throughout Canada, the United States, and Mexico via efficient ground transportation. To ensure reliable and timely delivery, Lambert ships directly from its production facilities as well as from its distribution center in Beloeil, near Montréal, Québec. Our reach also extends worldwide, with container shipments exported to South America, the Caribbean, Asia, the Middle East and Europe.

Built on rigorous quality control, strong technical expertise and decades of industry knowledge, Lambert provides customers with dependable products and responsive service. One of the keys to our long-standing success is our ability to quickly adapt to our customers' evolving needs. This commitment, shared by the Lambert family and their dedicated team, has earned the trust and respect of the horticultural industry for more than 95 years.

Lambert, at the root of your success since 1928.

Market Segments

Lambert Peat Moss. is one of the leading horticultural producers of sphagnum peat moss and peat-based mixes in North America.

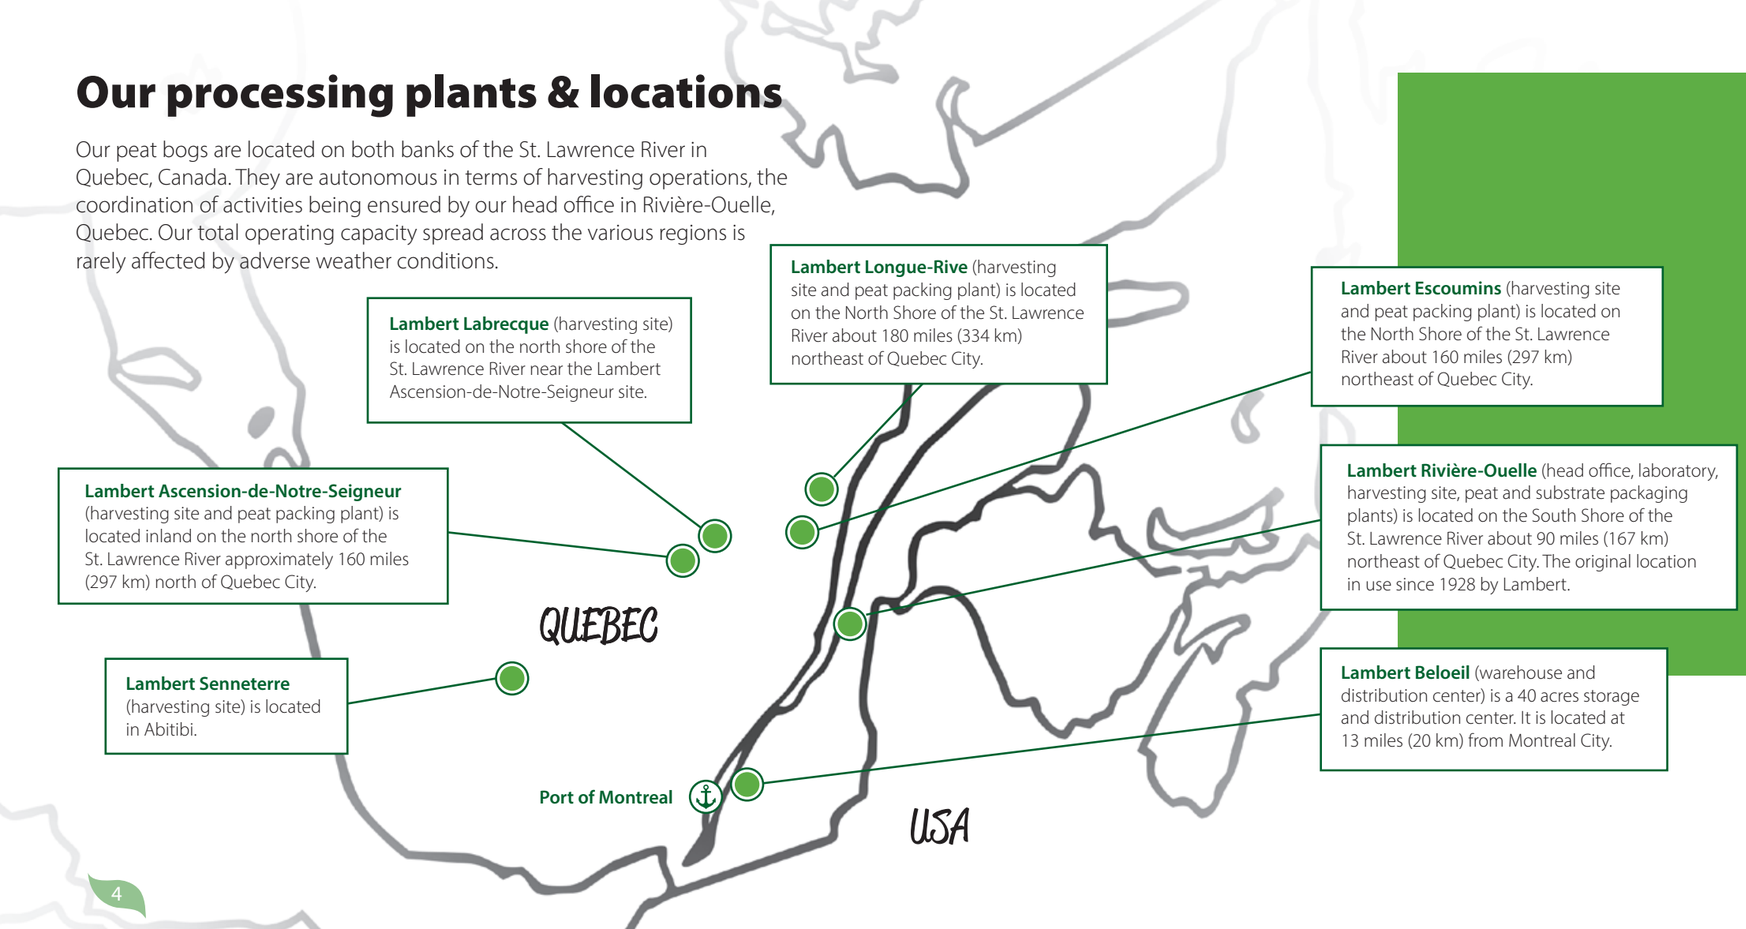

Companies trust Lambert as a reliable supplier.

- **Horticulture**
- **Environment**
- **Forestry**
- **Landscaper**
- **Agriculture**
- **Soil Manufacturing**

Our processing plants & locations

Our peat bogs are located on both banks of the St. Lawrence River in Quebec, Canada. They are autonomous in terms of harvesting operations, the coordination of activities being ensured by our head office in Rivière-Ouelle, Quebec. Our total operating capacity spread across the various regions is rarely affected by adverse weather conditions.

Lambert Labrecque (harvesting site) is located on the north shore of the St. Lawrence River near the Lambert Ascension-de-Notre-Seigneur site.

Lambert Longue-Rive (harvesting site and peat packing plant) is located on the North Shore of the St. Lawrence River about 180 miles (334 km) northeast of Quebec City.

Lambert Escoumins (harvesting site and peat packing plant) is located on the North Shore of the St. Lawrence River about 160 miles (297 km) northeast of Quebec City.

Lambert Ascension-de-Notre-Seigneur (harvesting site and peat packing plant) is located inland on the north shore of the St. Lawrence River approximately 160 miles (297 km) north of Quebec City.

Lambert Rivière-Ouelle (head office, laboratory, harvesting site, peat and substrate packaging plants) is located on the South Shore of the St. Lawrence River about 90 miles (167 km) northeast of Quebec City. The original location in use since 1928 by Lambert.

Lambert Senneterre (harvesting site) is located in Abitibi.

Lambert Beloeil (warehouse and distribution center) is a 40 acres storage and distribution center. It is located at 13 miles (20 km) from Montreal City.

Distribution Network

Lambert can supply the market at competitive prices to distributors and commercial users throughout Canada, United States and Mexico. In order to optimize our transportation system, Lambert is able to ship directly from the production plants and from our distribution center in Beloeil, near Montreal, Québec.

We also export products worldwide via container shipments to South & Central America, the Caribbean, Asia, Middle East, and Europe.

We export to more than 65 countries.

Thanks to its extensive, efficient and versatile distribution network, Lambert can quickly ship its products around the world.

Innovate to cultivate better

Lambert Laboratory

Quality has always been a priority at Lambert, that's why the company owns a complete quality control laboratory. The laboratory staff developed standards and procedures to make sure that every cubic foot of product that leaves our yard totaly complies with our standards.

Quality control procedures are also developed regularly to increase the quality of our products. Procedures can be divided into three areas: chemical, physical and packaging. To comply with chemical standards, our products are sampled and analyzed for pH, EC and S.M.E. nutrient content. To assure that physical standards are respected, we analyze particle size distribution, porosity and moisture content. Also, we regularly measure the yield and the firmness of our bags. Finally we run random greenhouse tests in order to evaluate our products' performances. Therefore, a product that does not conform to one or the other of our tested parameters stays in our yard.

« Quality First... A priority at Lambert. »

Research and Development

Innovation and improvement play an important role in Lambert laboratories. In order to be able to offer our valued customers the products they deserve, Lambert is constantly working on its processes to condition, harvest and manufacture its sphagnum peat moss. Agronomists and engineers work together to come up with ideas and innovations that will bring our products one step closer to perfection. Whether it is to improve, create a new product or adapt an existing product, the Lambert staff runs different greenhouse trials to achieve its ultimate goal which is to offer the very best for our customers.

Technical Assistance

Our technical team, made up of experienced agronomists and soil technicians, is always ready to answer all of our customers' questions, whether it concerns peat moss or the use of our various products.

Certifications & Responsible Practices

Lambert Laboratory VeriFlora® Certified Peatland Products Certification

Lambert Peat Moss Inc. proudly holds the VeriFlora® – Certified Peatland Products certification for responsible peatland management since 2011. VeriFlora® is a sustainability certification and eco-labeling program recognized as the premium standard in the floriculture and horticulture industries. This certification program is based on ISO 9 001 and ISO 14 001 standards.

The requirements for this program involve all aspects of peat production, environmental protection and social responsibility as well as product quality. Companies that are VeriFlora® certified must meet specific criteria. An independent agency, Scientific Certification Systems* thoroughly verifies if the company meets these criteria and the company's compliancy based on the following elements:

- Responsible peatland management
- Protection and conservation of ecosystems
- Conservation of resources and energy efficiency
- Integrated waste management
- Equitable working conditions
- Community benefits
- Product quality

The Canadian peat moss industry has already undertaken steps collectively to maintain and develop the best management practices in the peatland sector and the peat industry. This certification program for responsible peatland management is the most important standard and compliancy to this program guarantees a firm commitment to ongoing improvement in the production of substrates for horticultural growth.

*SCS is an international leader in third-party certification, validation, and verification for environmental, sustainability, and food safety and quality performance claims. www.scscertified.com

Organic Materials Review Institute

OMRI (Organic Materials Review Institute) is a non-profit organization that evaluates products and materials for their suitability in producing, processing, and handling organic foods and fibers. OMRI evaluates the component materials in fertilizers, insecticides, fungicides, bactericides and other growing and processing aids.

Retail Growing Media

THE MOST COMPLETE LINE
of Potting Mixes & Soil Amendments

Quality products to help bring all your home projects to life, indoors and outdoors. Whether you are creating vibrant flower beds, growing a thriving vegetable garden, or achieving a lawn worthy of a golf green, Lambert offers the products you need to succeed.

Carefully designed to combine performance and reliability, just like our professional products, our line for home gardeners includes everything you need to help your plants, gardens, and green spaces thrive.

Give your plants the best!

- Perfect mix for every plant type
- Consistent performance
- Healthy root development
- Perfect balance of water retention and drainage
- Reliable growing results

Lambert Peat Moss and Natural & Organic Mixes

Canadian Sphagnum Peat Moss*

Lambert Peat Moss is an excellent soil amendment because of its capacity to retain water, aerate the soil and it is completely natural. It is OMRI Listed for organic use. Lambert Peat Moss helps retain moisture, aerates soil and provides organic matter for gardens and flower beds.

Uses: Gardens and flower beds

Product Features: OMRI listed for organic production, adds body to light and sandy soils, aerates heavy and clay soils, facilitates cultivation reduces the possibility of erosion, reduces the loss of fertilizer by leaching, protects the soil from drying out and hardening, saves water

Components:
- Canadian sphagnum peat moss (100%)

*Sphagnum Peat Moss should be used with a complete fertilizer program.

Packaging languages: English, French & Spanish

Professional Organic All Purpose Mix

This ready to use, environmentally friendly peat-based substrate promotes healthy and rapid plant growth for all your favorite flowers, vegetables, herbs, trees and shrubs. Lambert Peat Moss values only selected quality ingredients to ensure the best growing results.

Uses: All purpose, bedding plants, flowering plants, hanging baskets, foliage, cuttings, seed germination, interiorscapes, whiskey barrels and window boxes

Product Features: OMRI listed for organic production, ready to use, environmentally friendly, professional grower formula, promotes roots growth and saves water

Components:
- Canadian sphagnum peat moss professional grade
- Horticultural coarse perlite
- Dolomitic and calcitic limestone
- Slow Release Fertilizer

Packaging languages: English & Spanish

NATURAL & ORGANIC

Natural & Organic Mixes

Potting Mix

Lambert Potting Mix is a general purpose media with numerous applications for indoor and outdoor use such as hanging baskets and containers. The adjusted pH combined with perlite promotes aeration, drainage and assimilation of nutrients that are essential for optimum plant growth.

Uses: All purpose, bedding plants, flowering plants, hanging baskets, foliage, cuttings, seed germination, interiorscapes, whiskey barrels, window boxes

Product Features: OMRI listed for organic production, ready to use, environmentally friendly, professional grower formula, promotes roots growth, saves water

UPC Product Code	Size	Qty /Pallet
0-664980 6450-4	1.5 cu ft loose fill - 44 L	75 bags

Components:
- Canadian sphagnum peat moss
- Horticultural perlite
- Granulated algae
- Dolomitic limestone
- Calcitic limestone

Packaging languages: English, French & Spanish

Garden Soil for Flowers & Vegetables

Lambert Garden Soil for Flowers and Vegetables is ideal for adding organic matter to your vegetable and flower beds. The organic material in this soil helps improve aeration of clay soils and increases water retention in sandy soils.

Uses: Vegetable gardens, flower beds

Product Features: OMRI listed for organic production, ready to use, loosens clay soils, binds sandy soils, enhances water retention and drainage, adds organic matter, saves water

UPC Product Code	Size	Qty /Pallet
0-664980 6430-6	1.5 cu ft loose fill - 44 L	75 bags

Components:
- Canadian sphagnum peat moss
- Granulated algae
- Calcitic limestone
- Dolomitic limestone

Packaging languages: English, French & Spanish

Lambert Lawn Soil is versatile. It can be used to repair your lawn and also be used for establishing a new lawn. Made from peat it will bring to your soil organic matter it needs to promote good soil structure.

Uses: Lawn repair, lawn maintenance, new lawn

Product Features: OMRI listed for organic production, ready to use, adds organic matter, easy to spread on lawn, ideal when reseeding bare spots, environmentally friendly, saves water

UPC Product Code	Size	Qty /Pallet
0-664980 6420-7	1.5 cu ft loose fill - 44 L	75 bags

Lawn Soil

Components:
- Canadian sphagnum peat moss
- Granulated algae
- Calcitic limestone
- Dolomitic limestone

Packaging languages: English, French & Spanish

Lambert Trees and Shrubs Planting Mix is designed to achieve planting work. The texture of this soil will promote its soil incorporation. With its pH adjusted, it will loosen the soil and peat contained therein will promote adequate ventilation to promote root growth.

Uses: Plantation, soil conditioning

Product Features: OMRI listed for organic production, ready to use, promotes roots growth, facilitates water retention and drainage, protects soil from hardening, reduces leaching of fertilizer, saves water

UPC Product Code	Size	Qty /Pallet
0-664980 6440-5	1.5 cu ft loose fill - 44 L	75 bags

Trees & Shrubs Planting Mix

Components:

Components:
- Canadian sphagnum peat moss
- Coarse grade horticultural perlite
- Dolomitic limestone
- Calcitic limestone
- Starter charge

Packaging languages: English, French & Spanish

Hanging Basket & Planter Mix

Hanging Basket and Planter Mix is formulated to provide both good water retention and good drainage for a healthy root system even under stressful conditions. It is a lightweight mix, even when saturated, and is ideal for plant growth.

Uses: Hanging baskets, window boxes, outdoor containers

Product Features: Ready to use, optimum water retention

UPC Product Code	Size	Qty /Pallet
0-664980 7507-4	1.0 cu ft loose fill - 28.3 L	91 bags

Components:
- Canadian sphagnum peat moss
- Horticultural perlite
- Dolomitic limestone
- Calcitic limestone

Packaging languages: English, French & Spanish

***Packaging - Shipping**
Cases of different products of 4 dry qt & 8 dry qt can be shipped on the same pallet for a maximum of 30 cases per pallet

Complete Potting Mix with moisture crystals is specially formulated to optimize the water retention of the mix and to maintain good aeration for good plant growth. **The moisture crystals will reduce the frequency of watering during the growing season and provide sustained watering when you are away.**

Uses: Potted flowers, foliage plants, hanging baskets, planters, starting seeds, vegetables and herbs

Product Features: Ready to use, all purpose, indoor and outdoor, professional quality, moist crystals to retain moisture

UPC Product Code	Size	Qty /Pallet
0-664980 9758-8	1.0 cu ft loose fill - 28.3 L	91 bags
0-664980 9759-5	2.0 cu ft loose fill - 56.6 L	65 bags

Six months of "NPK" slow release feeding

Complete Potting Mix with moisture crystals

Components:
- Canadian sphagnum peat moss
- Horticultural perlite
- Controlled release fertilizer
- Dolomitic and calcitic limestone
- Wetting agent
- Water holding polymers

Packaging languages: English & Spanish

Professional All Purpose Growing Mix is formulated for professional growers, who demand excellent aeration, water retention and drainage. Many amateur growers enjoy using a mix that the professionals use.

Uses: Flowering plants, hanging baskets, foliage, cuttings, seed germination, interiorscapes, all purpose, bedding plants

Product Features: Professional formula, subirrigation, overhead irrigation, versatile, good for mums, good for poinsettias

ALL PURPOSE

Lambert Speciality Mixes

Seed & Cutting Mix

Seed and Cutting Mix is formulated to meet all of your seed germination and propagation requirements. It flows into seed trays easily and provides good aeration and drainage for young plants when they are most vulnerable. The mix anchors young roots well and provides adequate moisture for root development.

Uses: Seeds, plugs, cuttings

Product Features: Ready to use, fine texture, good water retention

Components:
- Canadian sphagnum peat moss
- Horticultural perlite
- Dolomitic limestone
- Calcitic limestone

Packaging languages: English, French & Spanish

UPC Product Code	Size	Qty /Pallet
0-664980 7610-1*	8 dry qt - 8.8 L	180 bags
0-664980 7611-8	16 dry qt - 17.6 L	120 bags

African Violets Mix

African Violets Mix is formulated for plants that have low light requirements and have very fine roots, like African violets and other members of the Gesneriad family. These plants grow in a substrate that has high organic matter, good aeration and drains well for good root growth.

Uses: African violets, Gesneriads, Gloxinias, Epiceas, Streptocarpus

Product Features: Ready to use, optimum pH, low salts

Components:
- Canadian sphagnum peat moss
- Horticultural perlite
- Dolomitic limestone
- Calcitic limestone

Packaging languages: English, French & Spanish

UPC Product Code	Size	Qty /Pallet
0-664980 7515-1*	4 dry qt - 4.4 L	360 bags
0-664980 7615-6*	8 dry qt - 8.8 L	180 bags

***Packaging - Shipping**
Cases of different products of 4 dry qt & 8 dry qt can be shipped on the same pallet for a maximum of 30 cases per pallet

Cactus and Succulents Mix is formulated to provide a welldrained mix with the addition of a coarse sand to provide weight and support for top-heavy plants. The mix contains Canadian sphagnum peat moss for organic matter and horticultural perlite for aeration and drainage.

Uses: Cactus and succulents

Product Features: Ready to use, heavyweight, contains sand to add weight and drainage

Cactus & Succulents Mix

Components:
- Canadian sphagnum peat moss
- Horticultural perlite
- Sand
- Dolomitic limestone
- Calcitic limestone

Packaging languages: English, French & Spanish

UPC Product Code	Size	Qty /Pallet
0-664980 7613-2*	4 dry qt - 4.4 L	360 bags

Orchids Mix is a blend of four components consisting of Canadian sphagnum peat moss chunks, pine bark, hardwood charcoal and volcanic rock. This blend provides a root environment that encourages good root development for epiphytic orchids, such as Cattleya, Phalaenopsis, etc. This mix is heavier than most houseplant mixes and provides the good anchorage of roots and better stability of potted plants.

Uses: Orchids

Product Features: Ready to use, excellent aeration, low salts

Orchids Mix

Components:
- Canadian spagnum peat moss chuncks
- Hardwood charcoal
- Red pine bark
- Volcanic rock

Packaging languages: English, French & Spanish

4 dry qt bags : 12 bags/case - 30 cases/pallet = 360 bags / 8 dry qt bags : 6 bags/case - 30 cases/pallet = 180 bags

SPECIALITY

Lambert Aggregates & Decoration

Horticultural Wood Charcoal

Horticultural Wood Charcoal has great filtration and absorption properties. It is used as an aid for purifying air and water in potting media. It can be used in terrariums to reduce salts and organic smells. Charcoal is often used in other substrates for the cultivation of certain genera of orchids, such as Vandas

Uses: Potting mix amendment, terrarium

Product Features: Increases soil quality properties, absorbent properties, antioxydant properties

Components:
- 100% Hardwood charcoal

Packaging languages: English, French & Spanish

UPC Product Code	Size	Qty /Pallet
0-664980 7619-4*	4 dry qt - 4.4 L	360 bags

Sphagnum Moss

Sphagnum Moss is harvested from the surface of peat bogs. It has long strands that are used in the lining of wire frames and hanging baskets. It is used extensively by hobbyists for air-layering plants that are difficult to propagate. Some genera of orchids, especially Phalaenopsis, are grown entirely in sphagnum moss.

Uses: Orchids, Topiaries, wire baskets liner, bonsai

Product Features: Ready to use, very decorative

Components:
- 100% Canadian sphagnum moss

Packaging languages: English & French

UPC Product Code	Size	Qty /Pallet
0-664980 7529-6*	8 dry qt - 8.8 L	180 bags

***Packaging - Shipping**
Cases of different products of 4 dry qt & 8 dry qt can be shipped on the same pallet for a maximum of 30 cases per pallet

AGGREGATES & DECO

Horticultural Perlite is produced by expanding volcanic rock under extreme heat. It is lightweight with many small air spaces that improve drainage in soils. It is ideal for blending with growing mixes for plants that require higher aeration or drainage than most plants. It is an excellent aggregate for rooting cuttings. It can be packed tightly around plant stems to provide support until a root system is developed.

Uses: Potting mix amendment, hydroponic

Product Features: Lightweight, inert, neutral pH, aerates, low salts, sterile

Horticultural Perlite

Components:
- 100% Horticultural perlite

Packaging languages: English, French & Spanish
The new 3 languages bag is not shown in the photo

UPC Product Code	Size	Qty /Pallet
0-664980 7621-7*	8 dry qt - 8.8 L	180 bags

Horticultural Vermiculite is produced from clay particles that are expanded under extreme heat. It is a lightweight aggregate that is used to increase water retention in your potting mixes. Its water-holding properties reduce surface drying of seed trays and provides an insulating cover for germinating seeds.

Uses: Potting mix amendment, seed cover

Product Features: Lightweight, inert, neutral pH, increases water retention, low, sterile

Lambert Soil Amendments

Ocean Blend

Ocean Blend is formulated for gardens, flowers, trees & shrubs and lawn maintenance.

Uses: Gardens, flowers, trees and shrubs, lawn maintenance

Product Features: Source of organic matter, improves water retention

The Perfect outdoor soil amendment for your gardening

Components:
- Canadian sphagnum peat moss
- Seaweed
- Shrimp flour
- Dolomitic limestone
- Calcitic limestone

Packaging languages: English, French & Spanish

0-664980 6590-7*	1.0 cu ft loose fill - 28.3 L	91 bags

* Should be used with a complete fertilizer program.

Organic Black Earth

Organic Black Earth is a special selection of pH adjusted Canadian sphagnum peat moss that is darker in color and higher in organic humates. It is recommended for creating flower beds and vegetable gardens.

Uses: Gardens, flower beds, lawn maintenance

Product Features: All purpose, source of organic matter, homogeneous mixture, improves sandy soils, loosens compacted soil, adjusted pH

Components:
- Canadian sphagnum peat moss
- Dolomitic limestone
- Calcitic limestone

Packaging languages: English & French

UPC Product Code	Size	Qty /Pallet
0-664980 6220-3*	24.5 dry qt - 27 L	105 bags

* Should be used with a complete fertilizer program.

Top Soil is recommended for conditioning flower beds and vegetable gardens or as a soil conditioner for lawn maintenance and for planting trees and shrubs. It is made of dark composted peat, a nutrient source that promotes plant growth.

Uses: Gardens, flowers, lawn maintenance, trees & shrubs

Product Features: All purpose, source of organic matter, homogeneous mixture, improves sandy soils, loosens compacted soil, adjusted pH

Top Soil

Components:
- Canadian sphagnum peat moss

Shrimp and Peat Moss Compost

Shrimp and Peat Moss Compost is a unique blend of pH adjusted Canadian sphagnum peat moss, compost and shrimp meal. It is a rich organic soil conditioner, high in nutrients that promotes plant growth. This blend is recommended for creating flower beds and vegetable gardens or as a soil conditioner for lawn maintenance and for planting trees and shrubs.

Uses: Gardens, flowers, lawn maintenance, trees and shrubs

Product Features: Source of organic matter, improves water retention, adjusted pH

Components:
- Canadian sphagnum peat moss
- Compost
- Shrimp meal
- Dolomitic limestone
- Calcitic limestone

Packaging languages: English & French

UPC Product Code	Size	Qty /Pallet
0-664980 6240-1*	27.2 dry qt - 30 L	105 bags

* Should be used with a complete fertilizer program.

Not available in the US market due to the compost component restrictions.

Sheep Manure Compost and Peat Moss Mix

Sheep Manure Compost and Peat Moss Mix is recommended for creating flower beds and vegetable gardens or as a soil conditioner for lawn maintenance and for planting trees and shrubs. It is a blend of pH adjusted Canadian sphagnum peat moss and composted sheep manure.

Uses: Gardens, ornamentals, landscaping

Product Features: Source of organic matter, improves water retention, adjusted pH

Components:
- Canadian sphagnum peat moss
- Composted sheep manure
- Dolomitic limestone
- Calcitic limestone

Packaging languages: English & French

UPC Product Code	Size	Qty /Pallet
0-664980 6230-2*	27.2 dry qt - 30 L	105 bags

* Should be used with a complete fertilizer program.

Not available in the US market due to the compost component restrictions.

Create your own paradise!

Turn your garden into vibrant oasis with products designed to help every plant flourish in your own backyard.

The devotion and passion that Lambert Peat Moss dedicates to its products make it the ideal partner, whether you are a professional grower, a garden center, a nursery, a greenhouse, a landscaper, a farmer or an amateur horticulturist.

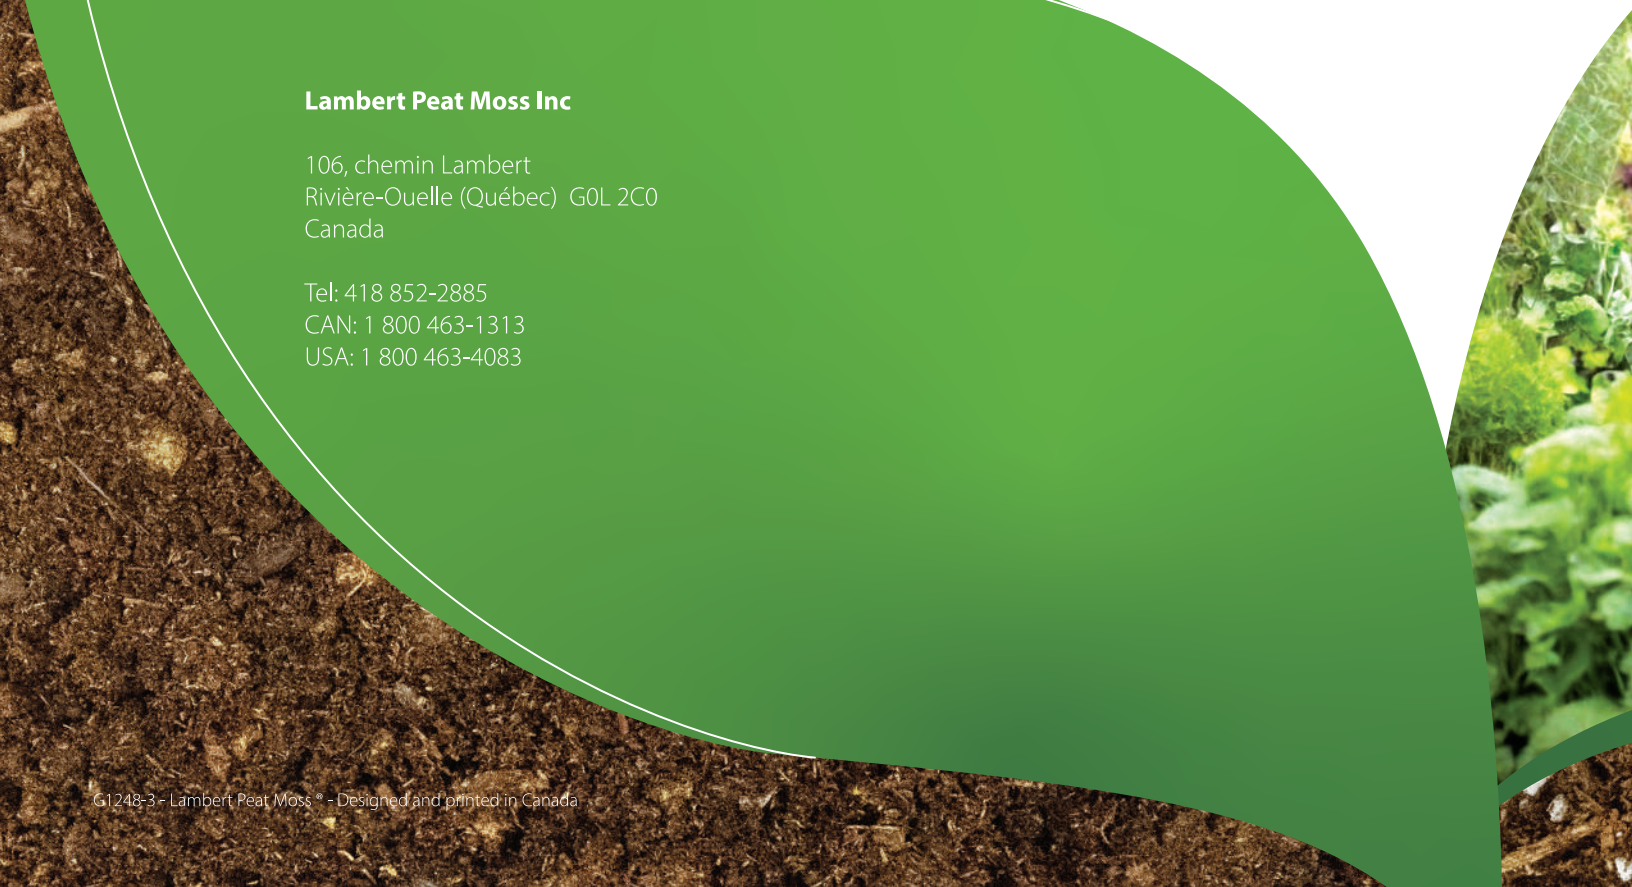

At the root of your success since 1928
